### 2. TRAINEESHIPS

Traineeship mobilities (SMP) at Egas Moniz are possible according to the conditions established by each degree/department, and depending on the availability of places and/or supervisors. Further information on traineeship conditions is available [online](#).

1. **Language skills:** Incoming trainees who will have contact with patients must have a minimum knowledge of Portuguese language corresponding to the B2 level (CEFR).
2. **Traineeship embedded in courses:** Erasmus students may apply for traineeship as part of the clinical modules offered by each study programme. To apply for traineeship mobility at Egas Moniz, students are invited to choose at least one module from the [Study Programme](#) in the specific degree to which they are applying (see [traineeship opportunities](#)).
3. **Traineeships for periods shorter than one semester:** traineeship periods shorter than one semester are possible in the following cases:
  - a. The incoming student is registered in at least one module of a Study Programme offered by Egas Moniz and will only attend the practical component of that module(s);
  - b. The traineeship is in scientific research and the research supervisor agrees to the

duration proposed by the student.

4. **Transcript of Records with ECTS:** In order to receive a Transcript of Records with the completed number of ECTS, students must abide by Egas Moniz academic calendar, and by the rules and regulations of the chosen degree. That includes taking part in all practical and theoretical assessments specified in the respective course guides.
5. **Traineeship Certificates:** Traineeships for periods shorter than one semester are recognised with a certificate signed by the head of the department that hosted the student or by the student's supervisor at Egas Moniz, not by the Academic Services. Certificates issued by any department other than the Academic Services are informative of the duration, field of study and grade of the traineeship period, and do not specify the number of ECTS.

### 3. INSURANCE

**Accident and Civil Liability insurance is compulsory.** Students not covered by their home university's insurance during their stay abroad must provide evidence of a private insurance covering personal accidents and civil liability or, alternatively, subscribe to Egas Moniz insurance for the academic year (price defined per year). This is not replaceable by a health insurance.

**Health Insurance:** EU students must be holders of the [European Health Insurance Card](#). Non-EU citizens must present valid proof of a health insurance policy valid for the duration of the mobility.
