

UNIVERSITÀ
DEGLI STUDI
DI PALERMO

Corso di formazione: Bridging Theory and Practice in Social Research

WHEN:

02/12/2024, 12:00 - 14:00, Room S2, Building 16
03/12/2024, 15:00 - 17:00, Room S1, Building 16
04/12/2024, 17:00 - 19:00, Assessment Lab, Building 15
05/12/2024, 14:00 - 15:00, Sala Meeting, Building 15
06/12/2024, 11:00 - 13:00, IT Lab, Building 12

PROGRAMME:

Planning research projects: a case study on female genital mutilation in Nigeria; the evaluation of the relationship between variables using different approaches; the contribution of spatial data on the monitoring of population dynamics; WorldPop projects and data.

REQUIREMENTS:

Basic knowledge of descriptive and inferential statistics; basic R programming.

LECTURER:

Dr. Chibuzor Christopher Nnanatu*, is a Senior Research Fellow in Spatial Statistical Population Modelling (SSPM) within the WorldPop research group, School of Geography and Environmental Science, University of Southampton, UK.

His research interests are on Bayesian statistical measurement error models for population data; Novel statistical techniques for multiple-source data integration; Geospatial modelling and mapping techniques for child and maternal health issues; infectious disease models; computational statistics and machine learning.

SOCIAL RESEARCH METHODOLOGY

Laboratorio di Metodologia per la Ricerca sociale

*Visit funded by "CoRI 2023 – Azione D"
