Each group will be composed of four participants, among students, PhD students and researchers (see Call, art. 3). Groups will be mainly composed of students and there will not be accepted groups with more than one researcher. The call is based on bottom-up approach, asking the group to deliver activities based on knowledge transfer, competencies transfer, or results transfer to a non-academic public in the local territories (Palermo, Agrigento, Trapani, Caltanissetta - Sicily).
- b) The Public engagement should be explained in quantitative and qualitative indicators as it is required in the application form.
- c) The initiatives submitted for application may have a variable duration and may have been implemented between 01/01/2022 and the call deadline 03/06/2024.
- d) The group should also provide a video to show their public engagement activities and what they have transferred to a non-academic public with their divulgation actions. The winner projects and videos will be presented during a university public event (to be defined) with UniPa Rector Prof. Massimo Midiri and Governance representatives.
